

Note:

- ## I - Cable protection

1. Ø22, Ø20, Ø16, Ø14, Ø12, Ø10, Ø8  
Black corrugated pipe and black PVC tape wound
2. Ø8 Orange corrugated pipe and orange PVC tape wound

- ### 3. Red shrinkable tube

4. Black flannel tape with

5. Black PVC tape with

6. Set of black PVC pip

II - View mode: wired side view

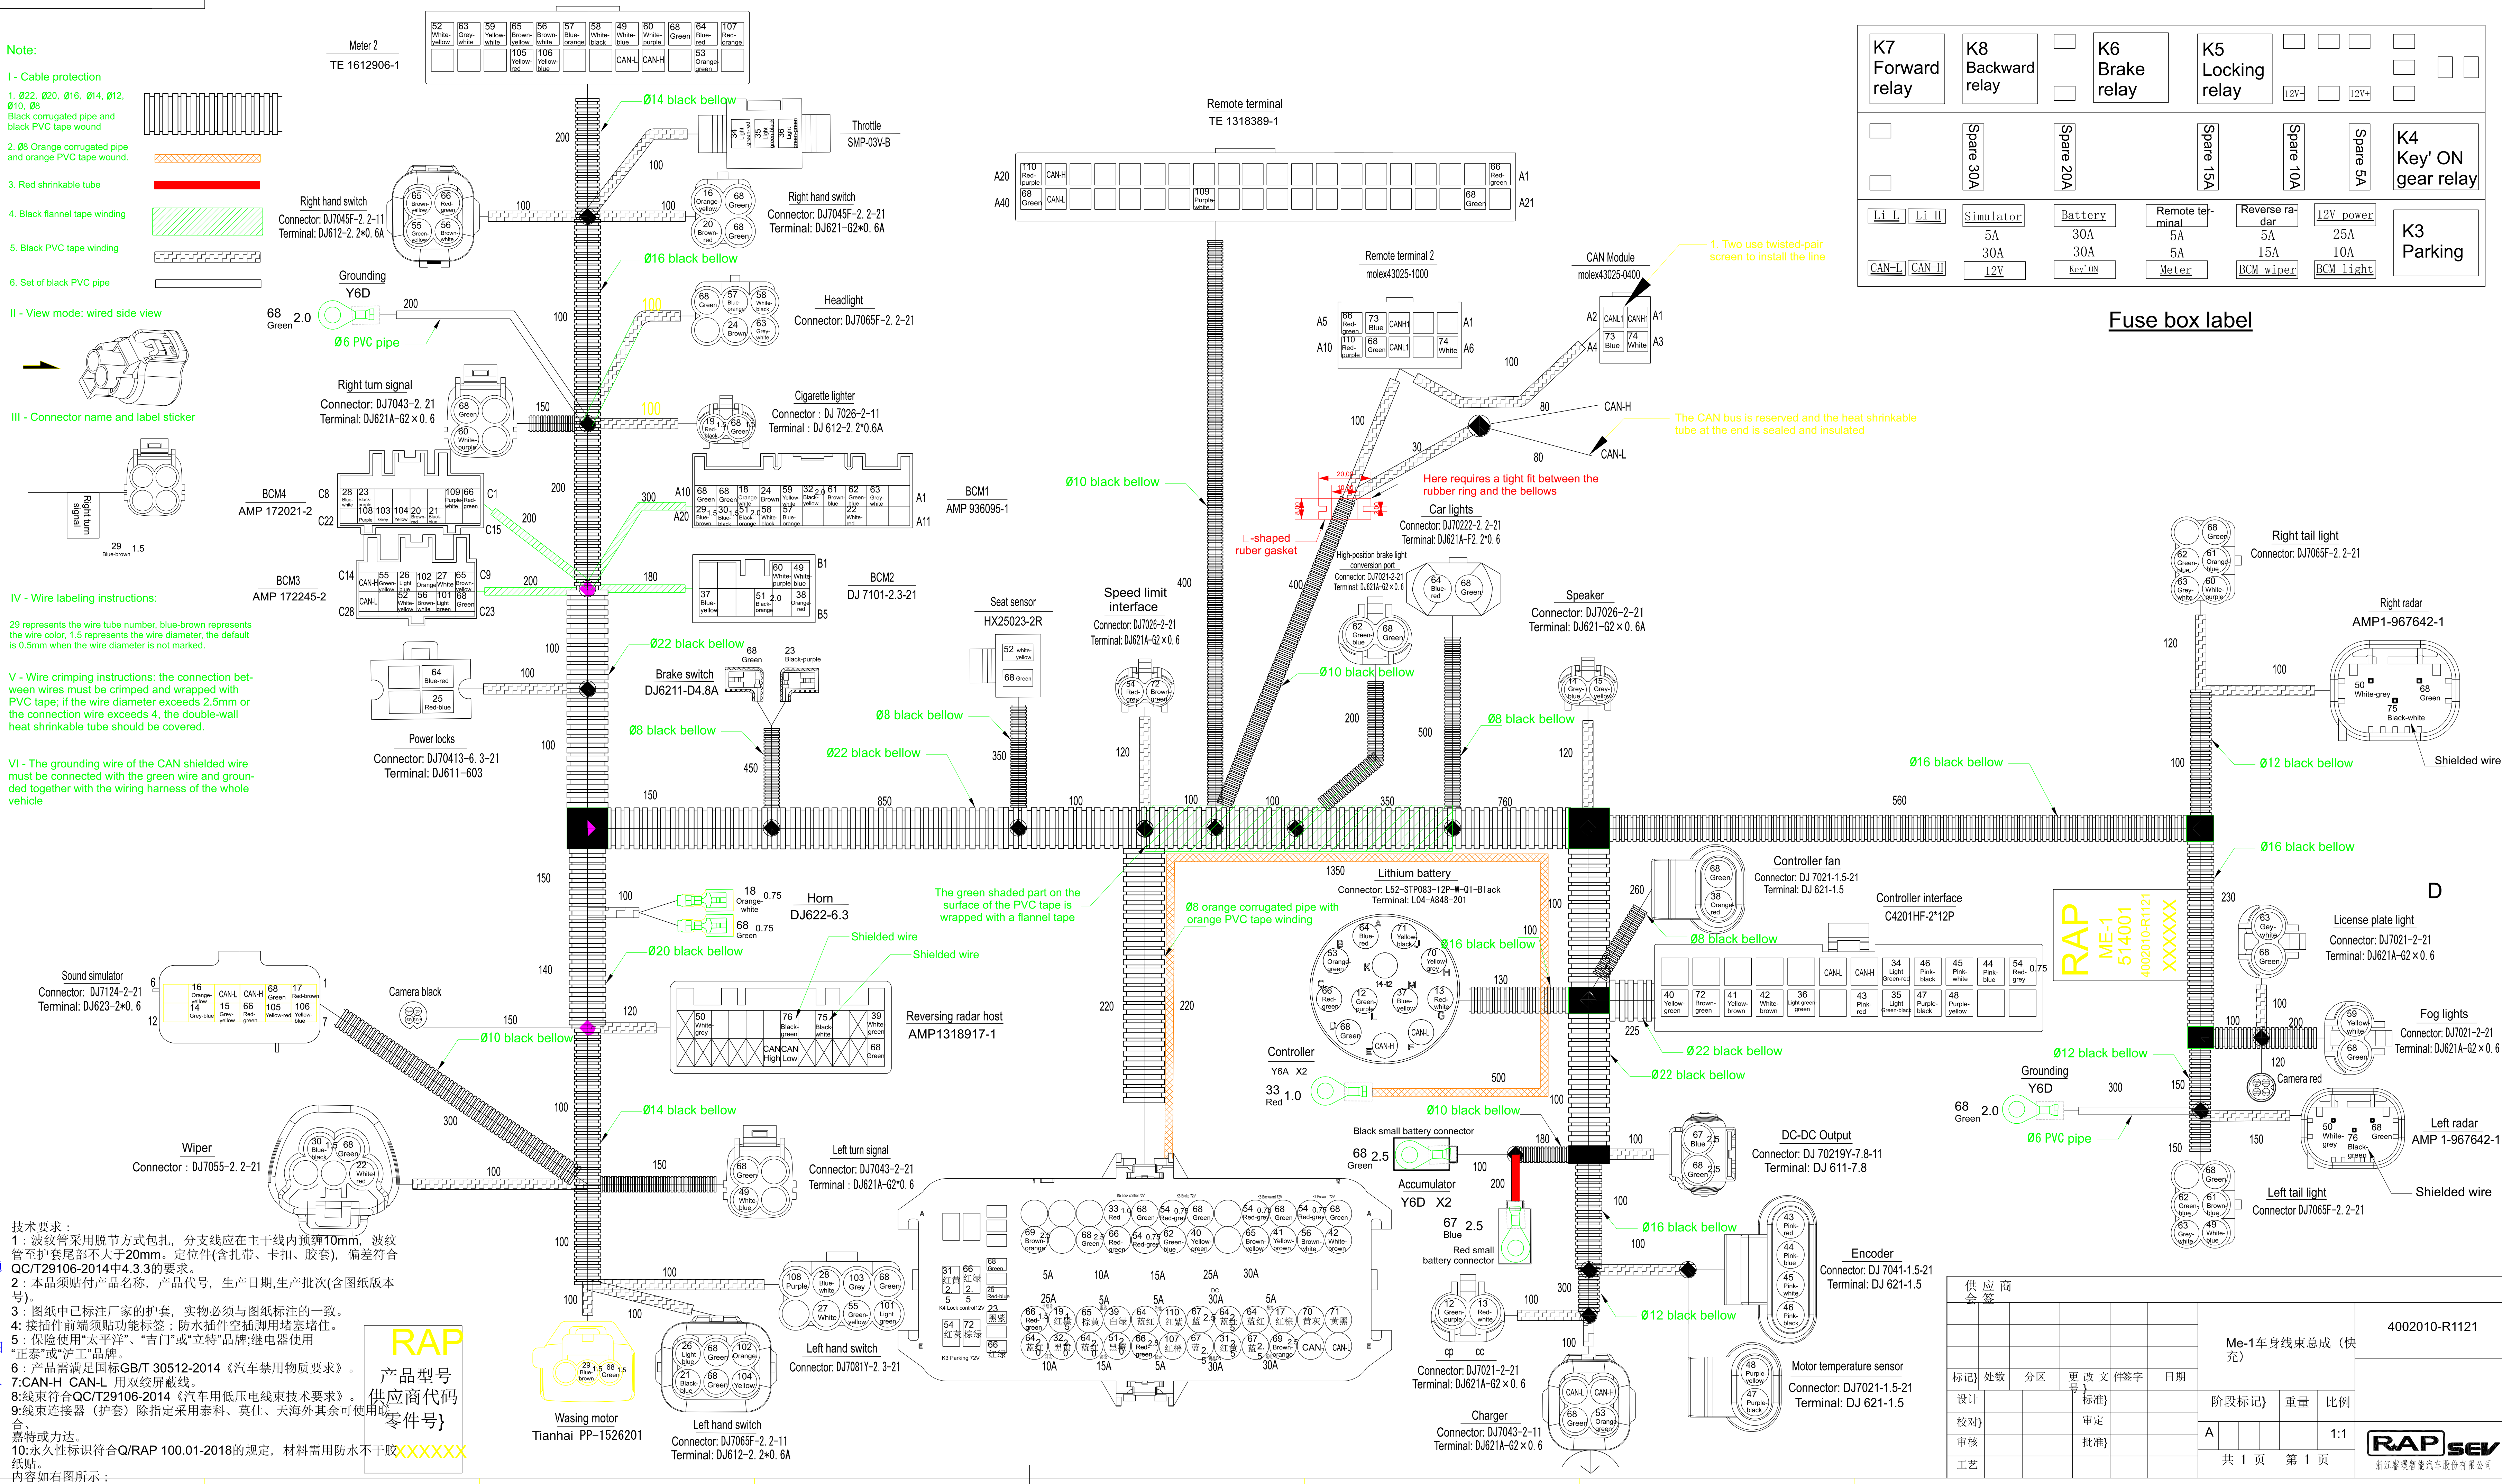

### III - Connector name and label sticker

#### IV - Wire labeling instructions:

29 represents the wire tube number, blue-brown represents the wire color, 1.5 represents the wire diameter, the default is 0.5mm when the wire diameter is not marked.

V - Wire crimping instructions: the connection between wires must be crimped and wrapped with PVC tape; if the wire diameter exceeds 2.5mm or the connection wire exceeds 4, the double-wall heat shrinkable tube should be covered.

VI - The grounding wire of the CAN shielded wire must be connected with the green wire and grounded together with the wiring harness of the whole vehicle
