

RAP OAK Spare Parts Catalogue

Zhejiang RAP Intelligent Vehicle CO., Ltd

Preface

The Catalogue is prepared to better practice the concept of RAP Vehicle, constantly improve after-sales service level and provide convenience for end customers to order parts and inquire.

The structure and details of each principal assembly and main optional configuration of OAK model are listed in the Book, and it is recommended that you note the followings when using the Catalogue in order to enable you to quickly and accurately find the certified accessories of RAP Vehicle:

1. The “OAK Spare Parts Catalogue” is only applicable to OAK products and not applicable to other products.
2. When ordering a certain parts, its part No. shall be clearly indicated.
3. The part No. is searched following below steps:
 - (1).Find the name of the system where the required spare parts are located in the general catalog (except standard parts). The Catalogue is divided into four systems according to the functions of the locomotive parts: power, chassis, electrical appliances, Body and accessories.
 - (2).Find the page number of the corresponding device in the Contents according to the system to which the accessory belongs.
 - (3).Find the corresponding details according to the specified page number.
 - (4).Determine the spare part code according to the details.
4. The Catalogue is used for customers to purchase parts only. The figures are schematic drawings, and please refer to the actual products of original vehicle.

The Catalogue is prepared based on the latest information available at the time of publication. The OAK product structure may change with the continuous progress and update of technology. Please pay attention to the related change notification timely.
